

International Tumor Microenvironment Seminar in Sapporo

北海道大学
HOKKAIDO UNIVERSITY

北海道大学
大学院先端生命科学研究院
Hokkaido University
Faculty of Advanced Life Science

Date 13 (Tue) February 2024

**No Registration
Needed!**

Venue The Hokkaido University Museum (総合博物館) 3F N-308

Program

13:00-13:10 Opening Remark

13:10-13:55

Atsushi Enomoto

Department of Pathology,
Nagoya University Graduate School of Medicine

**Control of tumor immunity by
fibroblast preconditioning in cancer**

13:55-14:40

Suzanne Ponik

Department of Cell and Regenerative Biology,
University of Wisconsin-Madison

**Breast tumor response to
ECM targeted therapy**

14:40-15:00

Break

15:00-15:45

Eishu Hirata

Division of Tumor Cell Biology and Bioimaging,
Cancer Research Institute of Kanazawa University

**Multifaceted interactions between cancer
cells and glial cells in brain metastasis**

15:45-16:30

Seiichiro Ishihara

Faculty of Advanced Life Science,
Hokkaido University

**Cancer progression regulated by
mechanical microenvironment**

16:30-16:40

Closing Remark

Organizer · Contact
